COMPANY PROFILE

ABOUT US

eThekweni Refractories is a leading refractory supply and installation company based in KwaZulu-Natal, South Africa, with over 75 years of industry expertise. We specialize in demolition, installation, repair, and the production of precast shapes, lagging, cladding, expansion bellows, and consumables. As agents for Blasch Ceramic Products, we proudly serve clients across Africa.

Our skilled team ensures top-quality site supervision and installations, drawing on extensive experience across diverse industries.

EtheKweni Refractories is a proud Level 2 BBEE Contributor.

MISSION

Our mission is to deliver top-quality refractory installations & products that meet the rigorous quality & safety standards required by our clients & regulatory bodies.

To achieve this, we have established a robust quality & safety management system aligned with international standards.

VISION

We recognize that the dedication of our management team plays a pivotal role in our success. Therefore, we prioritize creating a positive & secure work environment for all employees & subcontractors.

We also value personal growth, seeing it as an essential asset that benefits both our team members and our business.

QUALITY STATEMENT

Quality is the cornerstone of everything we do. Guided by our commitment we endure the extreme to deliver exceptional refractory solutions tailored to the needs of modern industries.

With the expertise of our skilled team, every project reflects our dedication to safety, reliability, and precision.
